

迴轉噴頭 改良

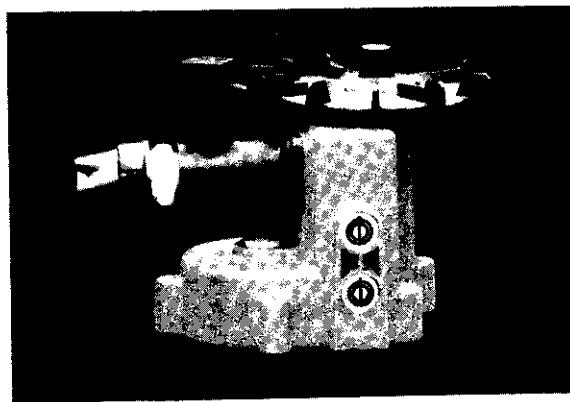

圖2 高壓迴轉式噴頭

源的地方才可架設，有時往往有電源來源不易的困難，而進口的高壓迴轉式噴頭價格昂貴，壓力高、設備費用高，一般農民較難接受。

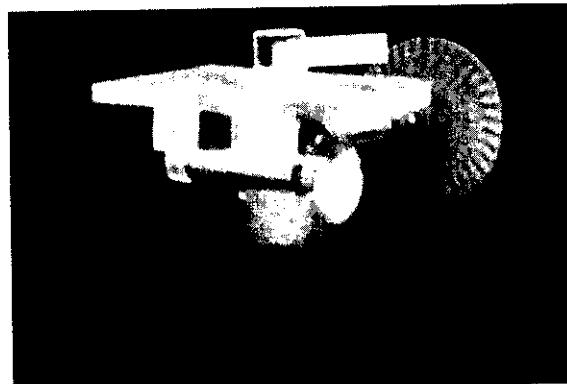

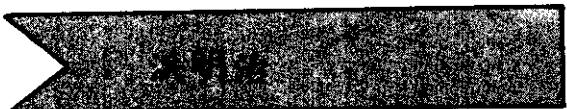

圖3 自轉圓盤式噴頭

改良過程

為克服這些困難，而加以改良的自轉圓盤式噴頭（如圖3），不需利用同步馬達驅動就能穩定迴轉，

The advertisement features a decorative grapevine border. In the center, there's a large illustration of a tree with the word "作物" (Crop) written vertically on its trunk. To the left, there's a cluster of mushrooms with the text "洋菇專用鈣" (Mushroom-specific calcium) and "輕質碳酸鈣" (Lightweight calcium carbonate). The right side contains several text boxes and illustrations: one with an apple labeled "改良酸性土壤 補充微量元素 促進土地肥力" (Improve acidic soil, supplement micro-elements, promote soil fertility); another with a pear labeled "改良品質" (Improved quality); and a third with a bell pepper labeled "增加產量" (Increase yield). At the bottom, there's a large arrow pointing to the right, and the company name "和春" (He-Chun) is repeated in a stylized font.
